Assessor Comments	A great opportunity to purchase third calf Angus PTIC cow, in Calf to 3D Genetics Wagyu. Cows purchased carefully as NSM heifers three years ago for their correct genetic traits in IMF & EMA for breeding F1 progeny. Cows recently weaned a calf in mid March and have been doing well on summer crop. All cows are in calf to 3D Genetics which are one of the leading F1 feedlot genetic suppliers. Cows are exhibiting good structure and frame and have plenty of years of breeding left. An opportunity to purchase a good line of cows joined to high quality genetics. Buy with confidence.
