Assessor Comments	On offer are 13 PTIC Shorthorn Heifers that are prey tested in calf to a Futurity Shorthorn bull. 10 of these heifers are PTIC red tag and 3 heifers are PTIC blue tag. These heifers are extremely well bred cattle, being the progeny of the vendors extensive 50 years plus Shorthorn breeding operation. They have length, bone and weight for age. The Futurity Shorthorn Bull that has been joined to these heifers has been used as a heifer bull previously by the vendor to good success. A very good opportunity to purchase good shorthorn females with all of their breeding lives ahead of them.
