Steers are well travelled and were a pleasure too handle

Handled With: Bikes , Dogs , On foot , Vehicles

Assessor Comments: Very good run of growthy milk teeth steers. After a long and wet winter these steers still present with a heap of compensation as they are still coating out. Steers are on the move being drenched / Multimin and introduced to oats a month ago. Brindles and tail of mob were removed. Ideal too feed or turn into bullocks over the summer!
