	Well educated breeders that flowed through the yards and across the scales at assessment with a minimum of fuss. Were very settled throughout the media process and I would confidently say excellent temperament.

Assessor Comments	Young three year old cows coming up on their second calf PTIC to commence calving first week August. Young breeders that are bred out of volume cows on Dunoon, Glenruben and Table Top Angus bloodlines coupled with an AI program utilising leading Angus genetics. Cows present in good store condition and have plenty of frame to stack the kilos on once shown some favourable grazing conditions. Great opportunity for the breeder or calve down and do a lucrative trade in the Spring.
