Assessor Comments	Buyers a very good quality run of steers suitable to background to feeder steers or grow out to bullocks. These are genuine front paddock cattle that are not only appealing on phenotype but with the performance to back. They are suited to a wide array of southern markets and exhibit plenty of weight for age, bone and muscling ability. They were weaned and trucked on day of assessment and will have been yard weaned, bunk trained and educated prior to auction day although it did appear that their mothers had already weaned them. there are three different brands on these cattle being family brands only.
