Very well handled cattle. A big emphasis is placed on temperament in this herd. Anything that doesn't suit is sold. These

	cows and calves are very familiar with the yards and human interaction. They were typical of unweaned cattle to handle. Odd heifer was unsettled on scales but settled once back in the mob.

Assessor Comments	Offering on behalf of Rachel O'Keeffe - herd dispersal consisting of 35 cows and 42 weaners in their respective lots in today's sale. These cattle were residing in SW Vic and trucked to Holbrook for agistment earlier this year. Due to a late start to the season they are being offered for sale. This line represents the unweaned Speckle Park heifers that will be running with their mothers until delivery. They were sired by Minyara Speckle Park S drop bulls out of JAD blood dams. They are doing well considering the tough start to the season and will respond immediately to a change in diet. They offer the successful purchaser the opportunity to secure quality Speckle Park genetics. Coordinating deliveries would be appreciated where possible.
