Assessor Comments	18 weaned Angus heifers sired by Cascade & Oswald Angus bulls. EU Accredited. These heifers have been weaned for 3 weeks and have remained in containment feeding ever since. They weighed in at 335kg at assessment after a shrink and are showing good weight for age given the tough seasonal conditions we have had. These heifers are tops of the drop with no heifers being retained this year. ideal heifers to join for a spring calving or to finish for the domestic market. Buyers please note vendor is offering another lot of 26 Heifers Jarobee Angus blood and 2 lots of steers in this sale.
