Quiet: 79 head Slightly Stirry: 3 head	Quiet: 77 head Slightly Stirry: 5 head	Temperament not assessed in Paddock

The heifers are very good to handle in and throughout the yards, they required normal steadying through gates, the majority simply walked onto the scales without any push whilst 5 were quick off the scales through the side gate & agitated if cornered however if handled quietly respond in kind. Very quiet when walking through the yard for photos showing normal flight zone.

Handled With	Bikes , On foot , Vehicles
Assessor Comments	Good quality Santa & Santa cross heifers from a large frame herd of quality Santa & Santa x cows. Ideal breeder replacement females. The Mt Cornish herd are noted performing cattle having infused top quality Santa genetics over large frame quality Shorthorn cows over many years targeting the feeder and weaner market. 2 heifers have a slightly larger / enlarged navel, 3 with very light fly bites, 3 with later cut horn yet clean to head - the vast majority are very well dehorned and a large % of polls. 5 heifers with some roan, white underline or the lightest brindle fleck.
