Probably some of the quietest animals I handle each year. Absolute pleasure!!!!

Handled With	Bikes , On foot , Vehicles
Assessor Comments	16 Angus heifers that are only light but are young and have Rennylea genetics in there background to ensure a bright future. Heifers have been tight for feed (even though grazing irrigated pasture, small acres) since weaning so expect a big turnaround in a short period. Breeder runs a very natural system of no fertilizer, little animal health and limited hand feeding.
