Assessor Comments	On offer is an excellent opportunity to acquire 60 light weight Wagyu Heifers. The heifers are showing excellent type and conformation making them ideally suitable to background, feed or breed from. These heifers are backed by strong genetics which include the high marbling MICHIFUKU blood line, the high growth and marbling ITOSHIGENAMI blood lines along with the high growth grand sire ITOZURUDOI blood line with past progeny excelling in the feedlot. The heifers range from F4's to F7's. There is a full list of Sire identification numbers available in this assessment with EBV's attached. Please note there is one heifer with fly bite marks around her eyes.
