Calves flowed through race and crush well. Some calves were unsettled when weighing but settled well into the mob. Calves moved through yards with ease but blocked up well if needed.

Assessor Comments: A line of yard weaned vendor bred Angus steers that present in their working clothes. Steers were yard weaned for 4 days on Rye & Clover Hay and will continue to be fed in a small paddock with ad lib Rye & Clover Hay until delivery. Due to challenging seasonal conditions these steers present an opportunity for compensatory gain and should power forward given the opportunity. Please note the same vendor also has another 3 lots in the same sale giving the buyer the ability to

	purchase 71 calves.
