Assessor Comments	Buyers an opportunity to buy 5 decks of VGQ PCAS eligible Droughtmaster X weaner heifers. These weaners have all the right bloodlines and genetics and are best described as medium to large frame relative to age. Weaners have been weaned for over a week to three weeks at delivery and are very well educated by vendor through yards. A very reputable line of cattle for sale that will be ideal to put away on grass and grow out to heavier weights. Heifers would suit to keep on as future breeders or background for feeder market as they show plenty of bone, length and confirmation. Note 2 x family brands in this line.
