Assessor Comments

Genuine turnoff of 'Dalkeith's' weaner steers. 77 Vendor Bred steers, fully weaned and educated - a rare opportunity to obtain a light weight Angus cross article that has had all the hardwork done. These steers have the quality to background an obtain a quality article to trade. Time and effort has been put into the weaning education program. Steers are soft easy doing cattle with good confirmation for growth and performance. Ready to go straight into your paddock and watch the kilos be gained. Due to the wet weather conditions that have consistently been present this year, the weaners were weaned first in August and then branded and marked later than preferred in mid September. Unideal conditions for the vendor will prove to be a massive advantage to the buyer - Angus cross steers full of compensatory weight gain potential. Vendor also has the Angus/santa heifer portion available in the same sale and the Angus portion of steer and heifer weaners on offer.
