Assessor Comments	Genuine turnoff of 'Dalkeith's' weaner steers. 15 Vendor Bred steers, fully weaned and educated - a rare opportunity to obtain a light weight Angus article that has had all the hardwork done. These steers have the quality to background an obtain a quality article to trade. Time and effort has been put into the weaning education program. Steers are soft easy doing cattle with ideal confirmation for growth and performance. Ready to go straight into your paddock and watch the kilos be gained. Due to the wet weather conditions that have consistently been present this year, the weaners were weaned first in August and then branded and marked in mid September. This will prove to be a massive advantage to the buyer - good framed Angus steers full of compensatory weight gain potential. These are the lead Angus weaners averaging 287kg. Vendor also has the Angus heifer portion available in the same sale and the santa/angus portion of steer and heifer weaners on offer.
