Assessor Comments	Genuine turnoff of 'Dalkeith's' weaner heifers. 101 Vendor Bred heifers, fully weaned and educated - a rare opportunity to obtain a light weight Angus cross article that has had all the hardwork done. These heifers have the quality to background an obtain an article to trade. Ready to go straight into your paddock and watch the kilos be gained. Due to the wet weather conditions that have consistently been present this year, the weaners were weaned first in August and then branded and marked later than preferred in mid September. Unideal conditions for the vendor will prove to be a massive advantage to the buyer - Angus cross heifers full of compensatory weight gain potential. Vendor also has the Angus/santa steer portion available in the same sale and the Angus portion of steer and heifer weaners on offer.
