These are well educated steers that were fine to handle throughout the assessment. These steers have been hand fed for many months & are used to that interaction. Under pressure within the the yards & singled out for weighing a very odd steer became agitated & wanted to get back to the security of the mob. Once back in the mob they were settled.

Handled With	Bikes , On foot , Vehicles
Assessor Comments	Tops of the drop, big stretchy steers that are well grown & ready to power on and fill out for their purchaser. The Lieschke's have always selected top end sires from both the Scotts Angus & Sprys Shorthorn programs to continually strive to breed the best commercial cattle they can. Sires are selected for carcass, growth, structural soundness and good temperament. These steers are well educated & were yard weaned in March. These steers are on short improved pasture with quality hay, and have the foundations laid to be ideally suited to continue to perform, growing & gaining weight. 10% tail draft removed at assessment, Highly recommended
