Assessor Comments	A very even line of well bred Angus steers. Ideal for the feedlot or to background to heavy feeder or kill weights. They were easy to handle through crush and yards and present in forward condition, with good frame, bone & softness. 16 steers are vendor bred from Millah Murrah Bloodlines. The balance were selectively purchased as weaners locally as two lines from Goolma and Mendooran and are Noonee blood. From the recent rainfall odd steer has mud over the head as seen in some of the photos. They have yellow management tags. They have recently been running on an oat crop and are well handled and managed with their animal health up to date. A great opportunity to secure a bdouble lot of 60 Angus steers with an even weight range, powering ahead ready to take on further.
