Assessor Comments	34 weaned, vendor bred, Angus heifers that are 10-11 months old and weighed into a very tight weight range of 25kg (340-365kg) averaging 350kg at assessment. The Schilg family calves are sired by top end Dunoon Angus bulls with a focus on temperament, high growth and IMF when selecting sires and bred from large frame cows. Very stylish heifers that present in forward store condition with plenty of frame and body depth. With all the health treatments already done has them well prepared for joining. These females would be a welcomed addition to any breeding herd. Highly recommend!
