	Cattle were great to handle moving calmly through the yards. They loaded easily into the force, race and crush. A small % were nervous while mouthing, while on the scale platform or when pressured. The steers relaxed quickly once the pressure released. Please view photos and videos		
Handled With	Bikes , Horses		

Assessor Comments	A quality line of EU Angus and Angus cross yearling steers. Ideal feeders for the top end domestic market. Alternatively, grow on to export feeders or finish to quality bullocks. Showing good bone and growth for age. Cattle are fresh in the coat and steaming forward. All sired by angus bulls, with approx 23 showing angus/angus traits with the balance being angus with some santa influence. Note there is 1 shorthorn angus x steer. The steers were great to handle through the process with a small % nervous in the crush while weighing but fine in the mob. Please view photos and videos.
