Assessor Comments	**COMPLETE DISPERSAL - PROPERTY SOLD** This lot represents the 2-6 year old Carlora Merino sheep joined to Rocdell WS rams for a late Sept lambing. Ewes are full mostly wool and due to be shorn at the end of the month prior to lambing. Approx 20 Blue tag ewes are Feb shorn. Ewes are principally Greenland Merino blood lines with some hazeldean blood infused. Carlora had a strong focus on wool quality, in particular micron with the mature flock averaging around 17 micron. Ewes would benefit highly from a shearing, a precautionary backline and will be set up for lambing later in the year. Majority of the ewes are mulesed (portion non mulesed) and well as OJD vacc. Please note: Carlora also have SIL Blue tag ewes and SIL ewes joined to Merino rams in the same sale.
