Temperament

Yards	Crush	Paddock
Quiet: 35 head Slightly Stirry: 7 head	Quiet: 34 head Slightly Stirry: 8 head	Temperament not assessed in Paddock

Heifers flowed well through the race and crush, showed normal weaning tendencies in the backyard/crush. Heifers were good to handle considering only very recently coming off their mothers and a truck trip. A few heifers were very trotty in big yard but with further education throughout the weaning process no foreseen temperament issues.

Handled With	Bikes , Dogs , Horses , On foot , Vehicles
Assessor Comments	Buyers, on offer, 42 good quality Braford, Simmental and Charolais infused heifers. Heifers currently receiving full weaning program and are expected to respond very quickly given the opportunity. Heifers show very good growth for age. The Kenny family herd is based on leading genetics from Harriett Valley Braford bred females and have spared no expense purchasing leading genetics from Woonallee Simmentals. Buyers, 42 heifers that will excel in the heavy feeder heifer program or replacement breeder, worth your consideration. Note - heifers will be offered clear of ticks on farm.
