Assessor Comments	A 2 deck line of 66 VGQ PCAS eligible Droughtmaster X weaner steers that present in store to forward store condition and are best described as being medium to large frame relative to age. Steers show plenty of bone, length & depth and will continue to grow out to be excellent heavy feeders or grassfed bullocks given the opportunity to fresh feed or crop. Steers that have been weaned for over two months and have been well educated in and outside the yards so are ready to go straight into the paddock. Buyers please note the big curfew before being weighed so expect good compensatory gains to be had. Buyer also has two other lines in same sale.
