Assessor Comments	A 2 deck line of 73 VGQ PCAS eligible Angus & Angus X weaned heifers that present in store to forward store condition and are best described as being medium to large frame relative to age. Heifers show plenty of bone, length & depth and will continue to grow out to be excellent future breeders or heavy feeders given the opportunity to fresh feed or crop. Heifers have been weaned for over two months and have been well educated in and outside the yards so are ready to go straight into the paddock. Buyers please note the big curfew before being weighed so expect good compensatory gains to be had. At assessment 4 x head had a slight brindle fleck through the coat and 1 x heifer was noticed with slight blue eye. Buyer also has two other lines in same sale.
