| Assessor Comments | A quailty line of Angus cross heifers bred at vendor's Injune property sired by Hazeldean Angus bulls from Santa & Hereford cows. These heifers have been weaned and tailed out before being trucked to current location at the end of June to grow out on oats crop. These heifers would make ideal future breeders or trade weight feeders. Heifers were a pleasure to handle in yards and crush with a few stirring while weighing but quickly settled once back in mob. Heifers are well grown for age, with some heifers laying fat around the pins. |
