Very good to handle in and through the yards. Ten heifers were mildly agitated in and exiting the crush - they just wouldn't settle completely in the crush. They were fine once back in the yards and very good to handle. Educated to electric fences in paddocks.

Assessor Comments	A good to very good quality line of mostly medium to large frame yearling heifers. Vendor bred and are by Booroomooka or Bulliac Angus bulls over Angus, Angus cross, Charolais/Hfd and Santa/Hfd cows. They have been on oats since early July and have done well and are continuing to move forward. They are located 5km south of Moonie only 500 metres off the highway and are very accessible for any trucks moving north and south. Two heifers noted with mild blue eye spot in one eye. They were excellent to handle in the yards and suit to take directly onto feed for a range of high quality slaughter markets. Please note they are grain and HGP free and suit grassfed markets. Alternatively with only Angus heifers being retained as breeders by the vendor, these are not culls and suit to join to a bull of the buyers choice. Please note another line of Angus feeder weight heifers from this property listed in the same sale.
