Assessor Comments	28 outstanding steers bred from large framed ‘MYANGA’ blood cows. Averaging 354 kg at assessment these steers show good growth for age and plenty of constitution. They are backed with genetics with vendor purchasing the top sires annually at ‘MYANGA’ Angus bull sale, and this is proven through the shape and quality of these calves. They were good to draft and run through the crush for weighing but will benefit from further handling in the yards. They were weaned on the 7/4 and are doing well on oaten crop and wheaten hay since weaning. These steers are perfect to background and take onto heavy feeder weights or turn into export bullocks. Buy with confidence.
