Comment on Fat Score 1 Cattle	Steers are in strong store condition and they are OK to travel any distance as well as standard industry practices are followed.
Vendor Bred	Yes
Stock History	Vendor bred - Mooroobie Angus bulls x Angus cows.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Bloodlines	Mooroobie (Goondiwindi) Angus bulls used for at least the past 10 years with a focus on 600 Day EBV and calving ease (for selected heifer bulls).
Grazing Conditions	Grazing native and improved pastures consisting predominantly of Bambatsi, Green Panic, and Queensland Bluegrass. Steers are now moving ahead nicely on spring pastures. No oats over winter. Returned same
Burr/Seed in Coat	Native medic burr noted in coat and tail.
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives

Health Treatments				
	Vaccinated	24/02/2024	5 in 1	First Dose
	Vaccinated	11/06/2025	Bovilis MH+IBR	First Dose
	Vaccinated	06/12/2024	5 in 1	Second Dose

Vendor Comments	Weaners had access to Nutramix NRG dry season supplement over the winter. Steers did not have access to quality feed

to perform over the winter (no oats crop this year) compensatory growth now averaging 1.2kg/d over the last 30 days.

Quality Grades		Store Condition	
Very Good	53%	Store	100%
Good	47%		

Temperament

Yards	Crush	Paddock
Quiet: 56 head Slightly Stirry: 2 head	Quiet: 54 head Slightly Stirry: 2 head Stirry: 2 head	Quiet: 58 head

Steers were generally very good to handle in the yards and through the crush. Four head would not settle fully in the crush or exited quickly. All settled once back in the yard except two steers who would rush when moving from one side of the yard to other. Fine when not under pressure and nothing aggressive noted. Steers all walked out calmly and were quiet when let out into holding yard

Handled With Bikes , Horses , On foot , Vehicles

Assessor Comments A good to very good quality line of vendor bred Angus EU accredited steers. With medium to large frame they suit to background to heavy Angus export feeder weights or alternatively to take directly onto feed for the domestic feeder market. They are also Grasslands accredited and would suit most grassfed programs (have had access to cottonseed). They are Jan - Feb 2024 drop steers which are now moving ahead on fresh spring feed and have the capacity for good compensatory growth given continuing good feed. Two steers noted with a mild blue spot on one eye and five noted with warts on face - not considered detrimental. Three noted with small white marks around cod and underline. They have had 5 in 1 with a booster at weaning and have received their first dose of Bovilis MH+IBR in June. (Exp & Batch details available upon request). Please note another line of lighter AA steers available in same sale to fill B Double truck if required.
