Assessor Comments: Healthy young steers that have been well weaned & bunker trained on to slingshot pellets. Tops of their drop with the seconds being offered in the same sale. Carrying pure Jarobee Angus blood from a self replacing herd of large framed matrons. These are long, deep, structurally correct steers with plenty of weight carrying capacity come the Spring time. These cattle have been purchased on repeat occasions by inhouse clients and have proven to perform in both feeder & export weight brackets. Buyers please note. Vendor has the younger brothers, plus 2 lots of heifers in the same sale. Please see photos & video for full contentment.
