Temperament

Yards	Crush	Paddock
Quiet: 4 head	Quiet: 3 head	Temperament not assessed in Paddock
Slightly Stirry: 5 head	Slightly Stirry: 6 head	

Cattle presented nervous during assessment which is typical of fresh weaners with minimal handling. Cattle were calm when photographed but became agitated when too much pressure was applied. They flowed through the race well, with only minimal stir in the crush. Heifers will settle down with regular handling.

Handled With	Bikes , On foot , Vehicles
Assessor Comments	With the unpredictability of the season, the vendors have decided to offer their lead draft of 9 Angus Charolais Cross heifers. Heifers are a Feb/April drop, have recently been weaned and are thriving on improved pastures and pasture silage, averaging 298kgs at assessment with a 5 hour curfew. The vendors main focus is breeding stock with great structure, feet and quick growth rate with these heifers being a prime example of all. With time, they will make a fantastic asset to a breeding program or to hit other target markets. A tail has been removed ensuring a genuine lead draft. Please note vendor has another 16 steers in the same sale.
Assessor	**Georgia Sampson (Level 2 Accredited)**
Delivery Period	25/10/2025 to 31/10/2025 (7 days)
