	Heifers did stir in the crush whilst being assessed and when being drafted with a few heifers being aggressive but did settle well once released back into the mob and were very placid while photos were being taken.

Assessor Comments	A nice line of NSM Charbray & Charbray x heifers presenting in good forward store condition. These heifers will make ideal future breeders for any graziers chasing cattle with a high Bos Indicus content. Heifers would also suit a feedlot operation and show plenty of growth for age as well as softness and length of body. To the best of the vendors knowledge the heifers are not pregnant as there is no bull on the property. **Please Note** 1 heifer had a slight bit of skin off on her hip and under her eye at assessment. Vendor has another lot in the sale.
