The steers were very calm onto the scales they then walked through very quietly & out to the side yard - a small number were fidgety in the crush however gave no trouble in the yard or out. Photos of the Char calves were taken in a large cooler - the steers settled well and didn't trot or run around at all. The Black steers in the yard and were placid when moving amongst them.

Assessor Comments	Exceptionally good quality steers showing good bone, length and frame presenting in strong store to forward store condition. Well weaned & educated 1-2 weeks by sale day they are expected to grow well and perform to their potential on good feed. Assessed in two lots - 66 by Bauhinia Park Angus & poll Char bulls from Charolais & Char/Charbray and a small number of brahman cows and the second are 31 by Bauhinia Park Angus & poll Brangus bulls from Brangus cows - all good soft steers. The Glenaras cows are top quality & large frame. The photos show the mob characteristics. Again these steers are very docile and great to handle.
