Quiet: 102 head Slightly Stirry: 6 head	Quiet: 102 head Slightly Stirry: 6 head	Temperament not assessed in Paddock

Heifers were good to run through the crush. Only 4 heifers not as comfortable with extra pressure in the crush and keen to exit, but weren't silly.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot

Assessor Comments	A very good line of USDA NOP Organic heifers. Very feminine heifers, exhibiting length, bone & softness. Ideal to take through as future breeders or fatten for the organic premiums. Well handled heifers that are use to horses, dogs, helicopters, buggies and on foot through the yards. Heifers have kept going ahead since weaning and majority would all be joinable weight by end of the year. Heifers have been weaned for 3 to 4 weeks and have been mustered back in the day prior to assessment and used in a horse clinic, with a tail drafted off. Well bred heifers that will grow out into stylish breeders or heavy kill weights. # Please note red tag heifers separate family brand, no heifers retained in them.
