Assessor Comments	Buyers, a line of 36 vendor bred crossbred yearling steers presenting in forward store condition that had a LWT range at assessment of 290-354kg full to average 303.1kg after a -5% curfew. Steers would be ideal to continue to background on crop and they are really starting to do now. Please note; Drench and vaccination dates vary depending on when steers were brought home from agistment paddock. Same vendor has sister lot in this sale. Management tags were removed after photos and videos.
