Assessor Comments	42 Rennylea Angus blood cows with calves at foot only being offered due to a change in program with vendor switching to Autumn calving. Cows are 5-7 years old and have continually done a terrific job on their calves, they currently have Kelly Angus blood calves at foot. Calves were marked and given their first vaccination at time of assessment. Cows have been carefully selected to remain in the breeding herd over the years and given the opportunity have plenty of calves left in them.
