Assessor Comments	Exceptional line of Steers produced once again by the Clarke's of Ournie. The Clarke family are 4th generation cattle producers in the renowned Upper Murray, using select Reiland Angus genetics in their self replacing herd for the last 20 years. Selecting Bulls with desired traits, being strong 400 & 600 DW, Positive carcase figures for IMF & EMA, & good general structure with plenty of length, correct feet and a traditional Angus head. Every year these cattle are excellent, but this year, even without an Autumn start, they've proven what easy doing, top class cattle they are, not skipping a beat! Magnificent long, deep, healthy young steers. Cattle with an easy, soft muscling pattern, heavy skin & proper bone, designed to carry a power of meat and be a high yielding monster bullock. Usually retained to feeder weights, only offered for sale to ease feeding pressure coming into calving.
