Steers weaned morning of assessment and already reasonably quite. The odd animal had some run in yards and odd animal agitated in crush. Steers will be handled and every effort made to quiten cattle to a properly weaned stage before

	delivery.
Handled With	Bikes , Vehicles
Assessor Comments	Well bred , well grown weaners in forward store condition. Steers weighed from 260kg to 407 kg to average 319 kg. These cattle were weaned day of assessment so make allowances that the odd beast may shy feed over the next week while weaning and could lose weight. Steers with plenty of depth , bone & shape that do perform in feedlots and would normally be taken out to feeder weights but due to a short spring have decided to sell. Te Mania & Merrydale bloodlines used. If purchasing through an agent and prior arrangements made before sale then purchaser can pay on the 15 th June. Please ring with any questions.
