Assessor Comments	Outstanding line of Autumn calving PTIC heifers. Heifers present in fantastic condition, showing plenty of growth, shape, softness, power and performance. 13 Heifers are V drop (18 months old), with 34 Heifers being U drop (24 months old). These heifers have a tremendous amount of breeding behind them and will make excellent breeders. Joined to stud Landfall Angus Bulls S1358 & T1603, both very high-indexing sires with massive IMF and excellent birth weight and calving ease EBVs.
