Handled With	Bikes , On foot		

Assessor Comments	A very good line of wagyu mixed sex yearlings. they are out of Wagyu x Angus cows and by the Wagyu bull. Full sire details are located in the documents associated with this assessment. Cows were bred originally at Dungog with Sumo and Saxon bloodlines used in the cows. Vendor bred and 1 mark. Cattle have been doing exceptionally well for the last month in the area and these are no exception and should continue to do so if given the opportunity. Cattle were very quiet to handle and weigh, they have good structure and the capacity to handle a lot more weight in the future. They have all their vet health treatments up to date and are ready to take on to heavier weights.
