These Angus steers were very good to handle throughout assessment, quiet steers with the very odd one becoming agitated in the race or crush but once they returned within the mob they remained calm.

Handled With	Bikes , Horses , On foot , Vehicles
Assessor Comments	4 decks of quality Angus steers that have been drafted into a very good weight range of 300-400kg to average 335kg at delivery. Approximately 70% of steers were bought from Southern QLD and Northern NSW as weaners with the remaining 30% vendor bred out of Milwillah Angus bulls. These Angus steers were exceptional to handle through the yards and were photographed after a 24hr curfew. Steers are all HGP Free and present in store/forward store condition with good frame, providing a great opportunity to background them quickly into feeder markets. Please note there was 16 head with old pink eye scarring. Note - Cattle Assessment was completed by both Tom McLeish & Dean Fogarty.
