Weaners flowed through draft and up race with ease at assessment. Odd steer stirred under pressure in race but settled once back with the mob. In the big yards weaners were very quiet and easy to move between yards. A true credit to the vendor on how quiet the cattle work.

Assessor Comments	Buyers a 3 deck line of PCAS eligible Santa & Angus X weaned steers that present in good strong store to forward store condition and are best described as large frame. Steers show plenty of length & bone and will continue to grow into good heavy feeder steers or grassfed bullocks. This line of weaners have been predominantly sired by very good quality Waco Santa bulls out of Santa, Droughtmaster X and Angus cows. Steers will have been weaned in yards for over a week at delivery being fed quality lucerne & oaten hay. A very good line of steers with a great performance history & temperament that will not disappoint.
