Docile: 12 head	Docile: 12 head	Temperament not assessed in Paddock

Very well handled quiet replacement breeders.

Handled With	Bikes , Horses
Assessor Comments	Good young replacement breeders. Buyers this herd is strict on fertility, temperament and mothering ability, those that return with no calf or PTE are never retained in the herd. These young cows are generally medium framed with one small & one large frame. They are doing a good job on the calves, and look to be picking up in body condition themselves as this property had been missing the earlier storms & rain. This is a genuine sale to down size the breeder herd as rain events have been infrequent. Genuine composite bred cows & calves that will complement any herd. I highly recommend these breeders.
