Assessor Comments	Buyers a good opportunity to secure a good line of well bred Angus Heifers. These Heifers are bred in the purple being based on a foundation built on Glen Avon genetics for a number of years purchasing Bulls up to $25,000. Heifers would be an ideal article with the lead still remaining in these Heifers to secure a line of future breeders that would be an asset to any breeding operation. These Heifers are all well grown for age showing very little condition. These Heifers would be an asset to any breeding operation or a backgrounding operation looking to take advantage of compensatory gains with these Heifers. Please note 1 Heifer with white around navel. 1 Heifer has a small lump on neck that has healed over from a grass seed. Please note same vendor has multiple lots in the same sale.
