Very nice to handle cattle, they moved well through the yards and stood calmly for photos.

Handled With: Bikes , On foot , Vehicles

Notable Traits

	Traits
22 Head	Ringworm

Assessor Comments: A very nice run of young EU accredited heifers they would normally be retained and grown out to be joined with some sold as future breeders or feeders. They are only be offered due to tight seasonal conditions and to make room for this years calves. These heifers have always performed for previous purchasers and have the ability to grow into breeders or into top quality feeder heifers. They were a pleasure to handle and moved through the yards with no fuss. There is plenty of breeding behind these young females being sired by high end Banquet and Murdeduke bulls, the vendor selects their bulls on structure, temperament and higher than average growth. These young heifers would suit any herd and add quality to any herd they went into. This is a complete drop of heifers with a tail removed, no heifers retained by the vendors. The heifers with a mild case of ringworm appears to be healing and the hair growing back. The brothers to these heifers are also being offered in today's auction.
