Assessor Comments Buyers, a very good quality run of Angus and Angus X Weaned steers. Steers weighed 245 - 395Kg to average 322Kg at assessment. Weaned on the 15th of January these steers were a pleasure to handle through assessment period. Sired by Brooksby Angus bulls out of Large frame Southern Bred Angus and Baldy Cows. Steers are running on fresh improved pastures with access to Weaner pellets. An ideal article to take home and grow onto heavier feeder weights. For further information please call.
