Assessor Comments This is a opportunity to secure a line of EU accredited Angus Heifers. These heifers are out of a quality line of first calving

Angus heifers. The heifers are by Dunoon Angus sires. These heifers with the extreme wet weather have done it hard during the winter period due to the feed being extremely wet and sour. The weaners off Greylands in most seasons this time of the year would average either side of 300kg. Diamond Jay have a quality line of Angus Cows that they have bred over many years. These heifers given a dry paddock and nutrition should go forward quite quickly.
