Cattle were easily handled once they got used to being moved around the yard. The odd heifer was slightly agitated when singled out in the pound but settled down in no time when returned to pen

Handled With	Bikes , Dogs
Assessor Comments	A great opportunity to secure some quality growthy heifers with plenty of bone & frame! these females are out of cows that have been selected through meticulous culling through the years on doing ability and fertility. The male portion are always retained by the vendor and sold either as quality heavy feeder cattle or Jap Ox grade bullocks - the heifers have been well handled and educated and have been loaded and trucked several times. These cattle always perform well on the hook - a run of their #2 brothers recently sold and average over 600kg liveweight without a drama.
