Quiet Heifers to handle through crush, Heifers were already in yards for a bit over 1 hour at assessment time and had settled quiet well, just one Heifer decided to run around and was unsettled in the crush but once back with its mates it settled well. bear in mind it was a warm day .

| Assessor Comments | Outstanding draft of Santa Cross heifers, plenty of leg and length in these Heifers which would make ideal replacement Heifers to put with a bull of your Choice or heifers that would perform well on feed, The Sunwood Cattle have a good reputation for cattle that perform. Bloodlines are sourced for growth and performance, and it shows with these heifers. 1 heifer had blight and has been treated with just showing blue in the eye and having no further symptoms.Heifers display good growth for age and are growing well on the pastures they are grazing on. It would be hard to go past a quality line of heifers like these. These are front paddock cattle; you won't be disappointed. |
