Temperament

Yards	Crush	Paddock
Quiet: 25 head	Quiet: 22 head Slightly Stirry: 3 head	Temperament not assessed in Paddock

These steers were very good to handle in all parts of the yards, they worked well through race and crush. 3 steers noted to be slightly stirry acted up when caught in the crush, once let out they settled back to the mob quickly. Vendor has spent a bit of time educating cattle in the yards and out in the paddock.

Handled With: Bikes , Dogs

Notable Traits

	Traits
1 Head	Ripped ear
2 Head	Thick heads (Castrated 2 weeks prior to weaning)

Assessor Comments: Buyers here is an opportunity to secure a mob of quality weaned steers. These steers are powering ahead after weaning and are performing on the winter feed and silage they have had in front of them. I would expect these steers to keep going forward for buyers. These would ideally suit backgrounders looking for cattle to put away on grass or crops to grow out to trade or feeder weights.
