Assessor Comments	Buyers a great opportunity to secure a 4 deck line of good quality Crossbred PTIC first calf heifers in calf to Ultra black bulls (1 neighbours Braford yearling bull was in for 4weeks before being removed) Purchased as lightweight weaners from Western Queensland they have grown out well, however will be good compensatory gains achieved due to cold winter on light forest country and a long 18 km walk to the yards prior to assesment. These heifers show mostly good bone and length and would appear to have the breeding to be an asset to most Breeder herds. Please note several heifers show some fly rub marks , one with slight blue eye and one with distorted ear, not considered detrimental. Vendor has 3 decks sisters preg tested non detectable in weaner sale
