Temperament

Yards	Crush	Paddock
Quiet: 18 head Slightly Stirry: 8 head	Quiet: 21 head Slightly Stirry: 5 head	Temperament not assessed in Paddock

Heifers were all quite well behaved throughout assessment. Easy to draft off the calves. Some were a bit 'jammy' in the forceyard, but once a leader went, they would then follow on well. Let out into the small laneway for photos and were all settled to walk amongst for photos. A couple of heifers with a bigger flight zone that were more comfortable at the back. Have been getting fed hay, so will follow the tractor/ute and are quiet to walk amongst in the paddock also.

Handled With: Bikes , On foot , Vehicles

Assessor Comments

Good lot of commercial Angus Heifers & calves, purchased as PTIC Heifers from the B&L feature female sale, Ex Carcoar. Couple of different ear marks in the mob, all Te Mania & Rennylea Angus blood, with bright, healthy Te Mania Angus blood calves at foot. When purchased, were meant to calve over a 10 week period, which turned out to be closer to 16 weeks, so there is a some size difference in the calves, have however been brought back on track with the Cornerstone Stud bull going in for a 9 week joining from 1st June. Calves have all been marked and the majority have already got one foot on the till averaging 170kg at assessment. Initially purchased to retain as some core breeders, offered for sale now due to the tight season & wanting to focus on a Spring pasture renovation. Buyers please Note. Vendor has another lot in same sale - solely drafted as run out the gate to suit paddock sizes. Please Note - 1 very small calf - see video.
